About Us

Welcome to the "The Future of Artificial Intelligence: Opportunities and Challenges", a premier gathering of global minds dedicated to exploring the future of Artificial Intelligence. Our mission is to create a collaborative platform where thought leaders, researchers, industry professionals, policymakers, and students come together to examine the transformative power of AI.

As AI technologies rapidly evolve, they bring unprecedented opportunities across sectors—healthcare, education, finance, manufacturing, and beyond. At the same time, they raise important questions about ethics, privacy, bias, accountability, and the future of work. This conference aims to foster critical conversations that address both the promise and the complexities of AI.

Hosted by Lalit Narayan Mishra Institute of Economic Development and Social Change, Patna incollaboration with Ixora Research Association, Jharkhand, this event features keynote speeches, panel discussions, hands-on workshops, and networking opportunities with experts at the forefront of AI research and development. Our goal is to inspire innovation while promoting responsible and inclusive AI practices that align with societal values.

Whether you are a developer, an academician, an entrepreneur, a policymaker or a curious observer, this conference offers a space to learn, share, and shape the direction of AI in the years to come.

Join us as we explore the opportunities—and face the challenges—of building a smarter, more equitable future through AI.

About Ixora Research Association, Jharkhand

Ixora Research Association (IRA) a non-profit organization approved and registered under Ranchi, Jharkhand Society Registration Act -XXI,1860. The primary objective of Ixora Research Association is to act as a buffer for the millions of young students, researchers, scholars, scientists and academicians across the country, belonging to the all fields. Right from organizing conferences and facilitating the publishing of promising research papers to the nurturing of young minds by aiding the spread of critical knowledge, IXORA is at the forefront of all these activities. One of the aims of the Ixora Research Association is to remove the gap between the establishment and young researchers/scholars, who are looking to expand their knowledge base, spread awareness of their extraordinary research work, and further their career prospects.
